DESCRIPTION

The Symbol X Maple functions as both a practical storage solution and a commanding, modern sculptural object. No. 13 has a cool silver-gray oxidation achieved through tea tannins and a traditional mordant process, sealed with tung oil. Horizontal landscape-like banding interacts with softer tiger figure below, creating a balanced and tranquil surface with a pronounced shimmer in natural light. As with every Symbol Coat Rack, the hooks lay flat when not in use, flipping down when needed.
