DESCRIPTION

Drawing from our iconic Symbol Coat Rack as the archetype, the solid walnut Symbol X functions as both a practical storage solution and modern sculptural object. When not in use as a coat rack, the Symbol X hangs on the wall as a purely aesthetic piece. When needed, the precision-machined gunmetal gray coat hooks flip down to help you organize your things. Made from premium unstained walnut and hand finished with linseed oil and tung oil to give a depth and richness that only hand rubbed finishes can achieve.
